

NICANOR I. MOLDOVAN

CURRICULUM VITAE

Personal Data:

Birth date and place: February 29, 1956, Fagaras, Romania

Nationality: Romanian.

Permanent Residence: USA

Marital status Married; two children (Emil and Victor).

Title and position: Assistant Professor of
Medicine, Biomedical Engineering
and Ophthalmology

Office Address Davis Heart and Lung Institute and
Biomedical Engineering Center
The Ohio State University
Room 305A, 473 West 12th Avenue
Columbus, OH 43210, USA.

Home address: 6772 Brock St., Dublin, OH 43017

Phone numbers: Offices: 614-247-7801 (DHLRI)
614-688-3635 (BME)
Lab: 614-247-7835
Home: 614-718-9738

Foreign languages: English, French, Romanian

Educational Background:

| <i>Degree</i> | <i>Year</i> | <i>Institution</i> |
|----------------------|-------------|---|
| Ph. D (Cell Biology) | 1995 | Univ. of Bucharest, Romania Institute of Cellular Biology and Pathology "N. Simionescu" |
| MS | 1981 | Dept. of Biophysics, Univ. of Bucharest, Romania |
| BS | 1980 | School of Physics, Univ. of Bucharest, Romania |

Baccalaureate

1975 High School, Sighisoara, Romania

Previous Employments:

- 2000-present Assistant Professor,
Departments of Internal Medicine (Division of Cardiology) and
Ophthalmology, Biomedical Engineering Center, Ohio State
University

1997-2000 Research Scientist, Heart and Lung Institute, Ohio State U.

1996-1997 Postdoctoral Research Fellow, Dept. Medicine, Johns Hopkins U.
School of Medicine

1995-1996: Postdoctoral Associate, Dept. Biochemistry, SUNYAB

1990-1993: Assistant Professor, Cell Biology Chair, School of
Medicine, Constanta, Romania

1990-1991: Assistant Professor, Cell Biology and Histology
Chair, School of Medicine, Ecological University,
Bucharest, Romania

1988-1995: Scientific Investigator, Institute of Cellular Biology
and Pathology Bucharest, Romania

1982-1988: Research Scientist, Institute of Cellular Biology
and Pathology Bucharest, Romania

Member of Scientific Societies:

- 1982- 1995 National Society of Cell Biology (Romania)
1991- 1995 National Society of Biophysics (Romania)
1993- 1995 European Society of Cell Biology
1996- 1998 American Society for Cell Biology
1997- 1999 International Society for Heart and Lung Transplantation
2000 -2003 International Society for BioMEMS and Biomedical Nanotechnology
(Board of Trustees, Treasurer)
2001- present Council on Basic Science, American Heart Association.
2001- present Association for Research in Vision and Ophthalmology (ARVO)
2002- present, The International Society for Optical Engineering (SPIE).

Faculty Status

- Core Faculty in Biomedical Engineering Program, OSU, Sept. 2000-
Category P in Biomedical Engineering, OSU, April 2001-
Category P in Integrated Biomedical Sciences, OSU, July 2002-
Graduate Faculty of the Interdisciplinary Program in Biophysics, OSU, August 2002-

Classes Developed

-BME694H "Survey of Cardiovascular Bioengineering", taught in 2000, 2001, 2002, 2003, 2004

-BME721 "Biological Mass Transport", part II: "Phenomenology of Biological Transport", taught in 2001, 2002, 2003, 2004.

Invited Lectures at OSU Medical Center

- Medical Biochemistry (Pal Vaghya, director), "Lipoproteins and Atherosclerosis" March 28, 2000.
- Physiology and Cell Biology 911, Current Topics in Vascular Cell Biology (Art Strauch director) "What is a blood vessel?" November, 14, 2000.
- BME 600 Introduction to BME (Steven Lee director): "Microvascular Tissue Bioengineering", Bevis Hall 247, May 29, 2002.
- DENT 803 Wound Healing: Molecular, Cellular, & Clinical Aspects: (F. Dhabhar and N. Quan, directors): "Angiogenesis", 3089B Postle Hall, Aug. 31, 2002.
- BME 600 Introduction to BME (Derek Hansford director): "Cardiovascular Technologies", Bevis Hall 247, Nov. 23, 2002.
- BME 600 Introduction to BME (Derek Hansford director): "Mechanisms of Biological Transport", Bevis Hall 247, Nov. 30, 2002
- BME 600 Introduction to BME (Steven Lee, director): "Microvascular Tissue Bioengineering", Bevis Hall 247, May 28, 2003.

Students Advised

1) Residents:

- Anna Park, MD, Intern at the Ohio State University Medical Center, Sept. 2001-present: "Circulating progenitor endothelial cells in diabetic retinopathy"
- Heidi Becker, Dartmouth University School of Medicine, March-April 2002: "In vitro angiogenesis models"
- Timothy Tweito, MD, Intern at the Ohio State University Medical Center, Jan. 2004-present: "Intercellular cooperation between pigmented epithelial cells and endothelial cells in the retina"

2) Post-Doctoral

- Mirela Anghelina, MD, Oct. 2000-present, "Contribution of tunneling mechanism to adult angiogenesis".
- Mohamed Abdel-Rahman, PhD, April 2003-present, "Novel angiogenic mechanisms and methods in retinopathy"

3) Graduate:

- Robert Carruth, BME, MS Program, "Microvascular Tissue Engineering" 2004-

- Simi Chako, PhD Biophysics Program, "Regulation of Cell Volume", 2004
 - Suman Kulkarni, BME, PhD Program, "LSC analysis of micropatterned endothelial cells" 2001-present
 - Omar Butt, BME, PhD Program: "Analysis and quantification of chemotaxis by Laser Scanning Cytometry", 2001-.
 - Somil Gupta, BME, MS Program: "Role of pigment epithelial cells to capillary formation in an ex vivo model of retinal angiogenesis" (Masters), 2001-2003.
 - Catalin Barbacioru, Mathematics, PhD Program: "Bioinformatics models in genomics and image analysis 2001-2002.
 - Melissa Poulos, College of Public Health, MS Program: "Documentation and planning in angiogenesis research" (Masters) 2001-2002.
- 4) **Undergraduate**
- Kathleen Orosz; "In vitro model of retinal angiogenesis". 2001-2003 (currently at Johns Hopkins U. Graduate Program in Cellular and Molecular Medicine)
 - Ileana Greavu: "Formation of free radicals in aortic endothelial cells" 2001-2002.
 - Georgiana Sofletea "Formation of free radicals in aortic endothelial cells" 2002-2003
 - Marla Hassink: "The Use of an In vitro Assay for Screening of angiogenic Effects of Drugs", 2002-2004 (Senior Honor Thesis, May 27, 2004).

Institutional, Departmental, and Divisional Administrative Responsibilities, Committee Memberships, and Other Activities

1999-2003 Graduate Studies Committee Member, Biomedical Engineering Center, OSU

2000-2001, Design and Planning Consultant, Ohio MicroMD Microfabrication Facility, OSU

2002-2003 Diabetes Center Task Force Committee, OSU Medical Center

Awards and Recognitions:

1981, *Magna Cum Laude*, Department of Biophysics, University of Bucharest.

1998, *Young Investigator Award* of North American Vascular Biology Organization , San Francisco, April 15-18

2000, Featured on "10TV", Columbus, OH

2001, *OSU Press Releases*: "Study shows way to grow new blood vessels in the heart" and "Researchers take steps to growing replacement blood vessels"

2002, Featured in "OSU/Discovery" Vol. 1, Issue 1 "The Yin and Yang of Angiogenesis Research at OSU".

2003 Ophthalmology Research Symposium, May 30th, the paper "Anopore Based Delivery System for Antiangiogenic and Antioxidant Drugs" by S. Gupta, K. Orosz, F. H. Davidorf, N. I. Moldovan, received the 1st Prize.

2003 Ophthalmology Research Symposium, May 30th, the paper "Endothelial Progenitor Cells in Diabetic Retinopathy" by A. Park, F. H. Davidorf, N. I. Moldovan, and R. Chalmers received the 2nd Prize.

Past Grant Support:

American Heart Association, Ohio Valley Affiliate (PI): "Role of monocytes in angiogenesis-A strategic therapeutic target in the management of intravascular thrombi", \$30,000/yr for 2 years (July 1999-June, 2001).

Active Grant Support:

- 1) NIH R01 HL65983 (PI): *Monocyte recruitment-A strategic target in angiogenesis.* \$200,000/yr (August 2000 -July 2005).
- 2) Patti Blow Foundation for Research in Ophthalmology (Co-I): *Use of nanotechnology in the treatment of diabetic retinopathy* \$100,000/yr (Feb. 2001- Feb. 2006).

Grants Pending:

- 1) NIH R01: *Biomechanics of endothelial cells in neovascularization* (PI); \$250,000/yr, for 5 years.
- 2) NIH R01: *Role of Endothelial Progenitors in Microvascular Asymmetry* (PI); \$250,000/yr, for 4 years.
- 3) P01: "*Advanced techniques for noninvasive atherosclerotic plaque characterization with computed tomography*". (Co-I; PI: Subha V. Raman)
\$5,239,091.00 for 3 years.

Peer Review Activities for Scientific Journals

Circulation, 2001-

Circulation Research, 2003-

Biosensors and Bioelectronics, 2003-

FASEB Journal, 2003-

Expert Opinion in Biological Therapy, 2003-

Clinical Experimental Allergy, 2004-

Trends in Cardiovascular Medicine, 2004-

Editorial Activities

Biomedical Microdevices, Section Editor for “Nanotechnology” 2001-

Advances in Experimental Biology and Medicine, vol. 522: “Novel Angiogenic Mechanisms: Role of Circulating Progenitor Endothelial Cells”, Kluwer/Plenum Academic Publishers, 2003 (<http://www.wkap.nl/prod/b/0-306-47697-5>). Editor.

Journal of Cellular and Molecular Medicine, Editorial Board, 2004-

Antioxidants and Redox Signaling, Guest Editor, Forum Issue on Stem/Progenitor Cells, 2005

Organizer of International Meetings:

2001, September 22-25: Second “*BioMEMS and Biomedical Nanotechnology World 2001*” Conference, Columbus, OH, Workshop on “*Nano-Manipulation*” (Organizer and Chairman).

2002, April 16-17, International Workshop “*Novel Angiogenic Mechanisms*”, Davis Heart and Lung Research Institute, Columbus, OH (Organizer, Chairman and Proceedings Editor).

2002, December 16-18: “*Biomedical Applications of Micro- and Nano-engineering*” Conference, The International Society for Optical Engineering (SPIE) Congress on “*Microelectronics and MEMS*”, Melbourne, Australia (Program Committee Board Member).

2003, August 25-26: Forth Annual “*BioMEMS and Nanotech World 2003*” Conference, Washington D.C.(Scientific Advisory Committee Member).

2004, December 12-15: “*Biomedical Applications of Micro- and Nano-engineering*” Conference, The International Society for Optical Engineering (SPIE) Congress on “*Microelectronics and MEMS*”, Sydney, Australia (Program Committee Board Member).

Invited Talks:

1. "Assisting the birth of new blood vessels: From cells to the silicon chip, and retour", Monday, Sept. 25, 2000, BioMEMS and Biomedical Nanotechnology World 2000 Conference, Columbus, OH.
2. "The Angiochip: A silicon-based angiogenesis assist device" Symposium on Current Advances in Biophotonics and Nanomedicine, October 19-21, 2000, SUNY at Buffalo, NY.
3. "What is a blood vessel?" Seminars in Cell Biology and Physiology, November 22, 2000, College of Medicine, Columbus, OH.
4. "Biomedical Microsystems and Nanotechnologies: Applications in Angiogenesis Research", 20th Annual Meeting of the Society for Physical Regulation in Biology and Medicine, January 10-14, 2001, Charleston, South Carolina.
5. "The Angiochip: A Silicon-Based Angiogenesis Assist Device", 10th Annual Seminar on Molecular Pathology "DNA in the Clinical Laboratory", March 8-10, 2001, William Beaumont Hospital, Detroit, MI.
6. "The design of bio-inorganic nanofilters: A nanomanipulation approach". Sept. 23, 2001, BioMEMS and Biomedical Nanotechnology World 2001 Conference, Columbus, OH.
7. "Tissular Insemination of Progenitor Endothelial Cells-the Problem, and a Suggested Solution" "Novel Angiogenic Mechanisms" International Workshop, April 16, 2002, Davis Heart and Lung Research Institute, Columbus, OH.
8. "Migration Of Monocytes/Macrophages In Vitro And In Vivo Is Accompanied By MMP12-Dependent Tunnel Formation, And By Neo-Vascularization", May 30-June 3, 2002, 67th Symposium (The Cardiovascular System), Cold Spring Harbor Laboratory, N.Y.
9. "Tunneling, a New Mechanism of Monocytes/Macrophages Contribution to Angiogenesis", June 26, 2002, European Oncology Institute, Milan, Italy.
10. "Tunneling, a Novel Mechanism of Intercellular Cooperation", July 12th, 2002, Institute of Biology and Pathology "N. Simionescu", Bucharest, Romania
11. "Microengineering of Artificial Capillaries", December 2-4, 2002,: "Biomedical Applications of Micro- and Nano-engineering" Conference, The International Society for Optical Engineering (SPIE) Congress on "Microelectronics and MEMS", Melbourne, Australia.

12. "Engineering of Artificial Capillaries on Micropatterned Silicon Surfaces", May 16th, 2003, CMR Faculty Seminar Series on "Tissue Engineering and Biological Mechanisms", Ohio State University, Columbus, OH.
13. "Facilitator role of monocytes/macrophages for tissue engraftment of endothelial progenitor cells", June 29th 2003,.XV Annual Meeting of The International Society For Heart Research (ISHR) (North American Section), Mystic CT.
14. "Intercellular Cooperation in Tissue Engraftment of Circulating Endothelial Progenitor Cells", Sept. 9, 2003, Indiana Center for Vascular Biology and Medicine, Indiana University School of Medicine, Indianapolis, IN
15. "Mechanisms of Tissue Engraftment of Circulating Endothelial Progenitor Cells". FASEB (AAA Symposia EB), April 17-21, 2004, Washington, DC.
16. "Design of a nanofilter-based drug delivery system with ophthalmic applications", The Glaucoma Foundation Think Tank 12th Annual Meeting, Sept. 9-10, 2004, New York, NY.

Provisional Patent Applications:

18525/04107: *Novel device to engineer vascularized tissue* (Filled March 19, 2004)

18525/04109: *Method to Seed Cells for Tissue Engineering and Improvement of Implant Biocompatibility* (Filled March 19, 2004).

Invention Disclosure

Bio-inorganic nano-pores for cellular and molecular manipulations.
(Filled Sept. 03, 2004, OSU Office of Licensing and Technology Transfer).
