

## Curriculum Vitae

Name: Sherwin Singer  
Title: Professor

Born: March 20, 1954  
Department: Chemistry

### Education

<i>Institution (Preceptor)</i>	<i>Degree</i>	<i>Date</i>	<i>Field</i>
University of Chicago	A.B.	1976	Chemistry
Princeton University	–	1976-1978	History of Science
University of Chicago (Karl F. Freed)	Ph.D.	1984	Chemistry
University of Pennsylvania (David Chandler)	postdoc	1983-1985	Chemistry
AT&T Bell Laboratories (John D. Weeks)	postdoc	1985-1986	Chemistry

### Positions/Research Experience

<i>Institution</i>	<i>Position</i>	<i>Dates</i>	<i>Activities</i>
Ohio State University	Assistant Professor	1/87-9/93	Teaching/Research
Ohio State University	Associate Professor	10/93-9/03	Teaching/Research
Ohio State University	Professor	10/03-	Teaching/Research

### Honors

National Science Foundation Predoctoral Fellow	1977
Camille and Henry Dreyfus Foundation Distinguished New Faculty	1985
Dozor Fellowship, Ben-Gurion University, Beer Sheva, Israel	1998

### Research Interests

Statistical mechanics; phase transitions in molecular fluids and solids, surfactant solutions and monolayers; biomolecular transport in nanochannels; classical and quantum dynamics in condensed phases, clusters, and biological systems.

### Publications

1. R. Hsu, S. J. Singer, P. Keim, T. F. Deuel, and R. L. Heinrikson, "Structural studies of *Bacillus subtilis* glutamine synthetase: further purification, sulfhydryl groups, and the amino-terminal amino acid sequence", *Arch. Biochem. Biophys.* **178**:644 (1977).
2. S. J. Singer, K. F. Freed and Y. B. Band, "Electronic angular momentum effects on photodissociation: fine structure cross sections and angular distributions for  $\text{NaH} \rightarrow \text{Na}(^2P_{1/2,3/2}) + \text{H}(^2S_{1/2})$ ", *Chem. Phys. Lett.* **91**:12 (1982).

3. S. J. Singer, K. F. Freed and Y. B. Band, "Invariant imbedding solution of driven (inhomogeneous) Schrodinger equations", *J. Chem. Phys.* **77**:1942 (1982).

### Recent Invited Presentations 1996-2005

- “Cluster Structure and Re-structuring Upon Solvation of Ionic and Non-ionic Solutes”, American Physical Society March Meeting, March 18-22, 1996, St.Louis, MO.
- “Stripes, Bubbles, Layers, and What Lies Between: Modulated Structures in Thin Films and Liquid Crystals”, Naval Research Lab, April 30, 1996, Washington, D.C.
- “Modulated Structures and Phase Transitions at Fluid Interfaces and Thin Films”, American Chemical Society Regional Meeting, June 9-12, 1996, Dayton OH.
- “Proton solvation in water clusters: quantum and classical Monte Carlo studies, graph theoretical enumeration of hydrogen-bonded arrangements, and compact/extended transitions”, American Chemical Society National Meeting, September 7-11, 1997, Las Vegas.
- “Stripes, Bubbles, Layers, and What Lies Between: Modulated Structures in Thin Films and Liquid Crystals”, Chemistry Department Colloquium at Carnegie Mellon University, October 21, 1997.
- “Stripes, Bubbles, Layers, and What Lies Between: Modulated Structures in Thin Films and Liquid Crystals”, Physical Chemistry Colloquium at Purdue University, November 5, 1997.
- “Proton solvation in water clusters”, Theoretical Chemistry Group Colloquium at Los Alamos National Labs, November 13, 1997.
- “Stripes, Bubbles, Layers, and What Lies Between: Modulated Structures in Thin Films and Liquid Crystals”, Chemistry Department Colloquium at University of New Mexico, November 14, 1997.
- “Stripes, Bubbles, Layers, and What Lies Between: Modulated Structures in Thin Films and Liquid Crystals”, Chemistry Department Colloquium at University of North Carolina and Chapel Hill, February 26, 1998.
- “Stripes, Bubbles, Layers, and What Lies Between: Modulated Structures in Thin Films and Liquid Crystals”, Chemistry Department Colloquium at Iowa State University, Ames, April 24, 1998.
- “Order and Complexity in Pattern Forming Systems”, Chemistry Department Colloquium, Ben-Gurion University, Beer Sheva, Israel, December 14, 1998.
- “Order and Complexity in Pattern Forming Systems”, Complex Fluid Seminar Series, Weizmann Institute, Rehovot, Israel, December 21, 1998

- “Order and Complexity in Pattern Forming Systems”, Physical Chemistry Colloquium, Hebrew University, Jerusalem, Israel, December 22, 1998.
- “Order and Complexity in Pattern Forming Systems”, Condensed Matter Colloquium, Department of Physics, Tel Aviv University, Tel Aviv, Israel, December 23, 1998.
- “H-Bond Topology in  $(\text{H}_2\text{O})_n$  and  $\text{H}^+(\text{H}_2\text{O})_n$ ”, Regional American Chemistry Society Meeting, Covington, KY, May 18, 2000.
- “H-Bond Topology in  $(\text{H}_2\text{O})_n$  and  $\text{H}^+(\text{H}_2\text{O})_n$ ”, Telluride workshop on *Water in Confined Geometries:  $\text{H}_2\text{O}$  Clusters, Particles, Surfaces and Thin Layers*, July 30-August 5, 2000.
- “Order and Complexity in Pattern Forming Systems”, International Symposium on Frontiers in Molecular Science 2002 (ISFMS2002), Qingdao, China, July 15-18, 2002.
- “Order and Complexity in Pattern Forming Systems”, Chemistry Colloquium, University of Tennessee, Knoxville, September 5, 2002.
- “New Perspectives on Water Clusters, Neutral and Protonated”, Workshop on Understanding the Role of Water on Electron-Initiated Processes and Radical Chemistry, Pacific Northwest National Laboratory, September 28-29, 2002.
- “New directions in the study of water in clusters, ice, and in nanochannels”, Symposium on Computational Chemistry, American Chemical Society Regional Meeting, Pittsburgh, PA, October 19 - 23, 2003.
- “Hydrogen bond order and disorder in ice”, Telluride Workshop on studies of ice, icy particles, ice surfaces, and ice-adsorbate interactions: a molecular view, July 25-30, 2004.
- “Hydrogen Bond Topology in Water Clusters and Ice”, Materials Science Lecture, McMaster University, October 6, 2004.
- “Order and Complexity in Pattern-Forming Systems”, Physics Department Colloquium, University of Waterloo, October 7, 2004.
- “Hydrogen Bond Topology in Water Clusters and Ice”, Chemistry Department Colloquium, University of Waterloo, October 8, 2004.
- “Hydrogen bond topology and proton ordering phase transitions in ice”, National American Chemistry Society Meeting, San Diego, March 13-17, 2005.

- (title to be announced) Pacifichem 2005 Symposium "Proton Transfer/Transport of H-bonded Liquids, Solids, Clusters and Interfaces", December 15-20 of 2005.

### Organization of Scientific Meetings

Gordon Research Conference on "Disorder in Materials", Chair for July 1998 meeting (and vice-Chair of 1996 meeting).

### Research Funding

## 1 Funded research as principal investigator

- *Freezing of diatomic molecules*  
*PI:* Sherwin J. Singer  
*Source:* Petroleum Research Fund - Type G  
*Project Location:* Ohio State University  
*Award Amount:* \$15,000.00  
*Award Dates:* 1987-1991
- *Electronic structure in dynamic environments*  
*PI:* Sherwin J. Singer  
*Source:* NSF-Chemistry  
*Project Location:* Ohio State University  
*Award Amount:* \$202,000.00  
*Award Dates:* 12/1/1991-11/30/1995
- *Order and complexity in pattern-forming systems*  
*PI:* Sherwin J. Singer  
*Source:* Petroleum Research Fund - Type AC  
*Project Location:* Ohio State University  
*Award Amount:* \$50,000.00  
*Award Dates:* 9/97-9/00
- *New directions in the study of ice and water clusters*  
*PI:* Sherwin J. Singer  
*Source:* NSF-Chemistry  
*Project Location:* Ohio State University  
*Award Amount:* \$270,000.00  
*Award Dates:* 8/01/01-7/31/05

Several proposals for computer resources were also funded at Ohio Supercomputer Center, Pittsburgh Supercomputer Center, and the Molecular Science Computing Facility at Pacific Northwest National Labs.

## 2 Funded research as co-investigator

- *Electronic structure in dynamic environments*  
*PI's:* Sherwin J. Singer and Sungyul Lee, Kyunghee University, Korea  
*Source:* NSF-International Programs (US/Korea)  
*Project Location:* Ohio State University  
*Award Amount:* \$9296  
*Award Dates:* 1993-1995
- *New numerical approaches to electron ionization*  
*PI's:* Sherwin J. Singer and C. William McCurdy, Lawrence Livermore Lab  
*Source:* NSF-Chemistry  
*Project Location:* Ohio State University  
*Award Amount:* \$57,000  
*Award Dates:* 1994
- *Engineered nanostructures for next-generation clinical chemistry*  
*PI's:* Michael Bissell, Terry Conlisk, Derek Hansford, Sherwin J. Singer  
*Source:* OSU Large Interdisciplinary Grant Development Program  
*Project Location:* Ohio State University  
*Award Amount:* \$125,000  
*Award Dates:* 1/1/05-12/31/06
